

Mathematics 2007, Grade 8

Mathematics Composite

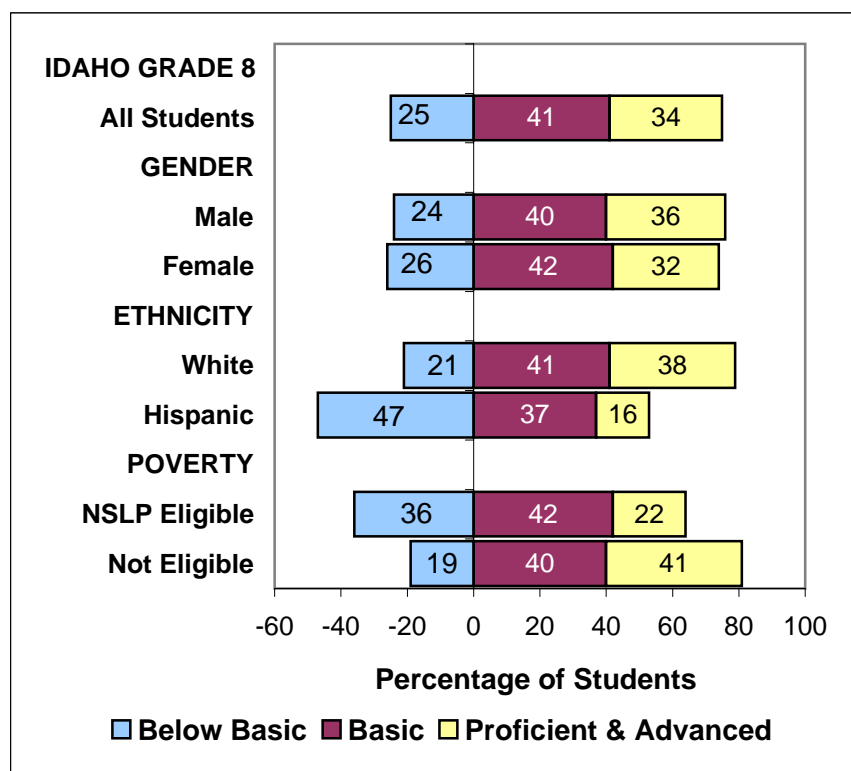

Idaho NAEP Snapshot

Volume 2007, Number 16

The Mathematics assessment of the National Assessment of Educational Progress (NAEP) used multiple-choice and constructed-response questions to examine student skills with number properties and operations, measurement, geometry, data analysis and probability, and algebra. The math scale ranges from 0 to 500, where 262 is *Basic* (meets grade 8 expectations), 299 is *Proficient*, and 333 is *Advanced*.

Mathematics Performance Levels by Demographic Group in Idaho

- ◆ On the NAEP 2007 mathematics assessment, the percentage of eighth grade female students in Idaho who scored at or above *Basic* (74 percent) was higher than their male peers (76 percent).
- ◆ On the NAEP 2007 mathematics assessment, the percentage of eighth grade White students in Idaho who scored at or above *Basic* (79 percent) was higher than their Hispanic peers (53 percent). Sample size was not sufficient to permit a reliable estimate of mathematics performance for Black, Asian, and American Indian students.
- ◆ On the NAEP 2007 mathematics assessment, the percentage of Idaho eighth graders who qualified for free or reduced price meals in the National School Lunch Program scoring at or above *Basic* (64 percent) was lower than their peers who were not eligible for the program (81 percent).

Comparisons are based on statistical tests (.05 level) that consider magnitude of difference and standard errors.
